

Contact LAN-TEL for Customer Service that is Responsive to Your Business Needs:

Your business is dynamic and so are your technology requirements. LAN-TEL is sensitive to the fact that your technology infrastructure may require modifications and upgrades on a moment's notice; therefore, we have the processes and staff in place to quickly and efficiently complete all moves, adds, changes and upgrades in the timeframes you need them in order to keep your business running smoothly and without interruption.

Here's why LAN-TEL is able to provide responsive, high-quality service to our customers:

- We have an elite team of highly trained technical field staff who are dedicated solely to providing real-time response to customers' requests for service.
- Our dedicated team is equipped with state-of-the-art diagnostic tools, fully stocked vans and the latest in mobile communications devices and technology. As such, they are positioned for deployment on a moment's notice to respond to your critical service requests.
- We provide our customers with 24 x 7 emergency service.
- We will gladly coordinate with you to schedule projects that need to be completed outside of normal business hours in order to minimize interruptions to your business.
- We provide you a single point of contact from start to finish who will keep you apprised of all progress and ensure that your service requirements are completed on schedule and according to plan.

For service that is as dynamic as your ever-changing network infrastructure and technology requirements, call LAN-TEL 24x7, 365 days of the year.

For LAN-TEL Customer Service, please dial 1-800-551-8599.
