

Structured Cabling Systems

LAN-TEL for All Your Structured Cabling Solutions:

It wasn't too long ago that when people spoke about structured cabling, they were referring to the copper wiring used to provide basic voice telephony service. Today, LAN-TEL's structured cabling portfolio includes a long list of state-of-the-art applications far beyond the copper-based voice applications of the past.

Let LAN-TEL Take Your Project from Start to Finish:

LAN-TEL has unsurpassed experience in managing and completing structured cabling projects from the early inception stage to that point when your employees and customers are successfully up and running. Our unique six-step process guarantees that your structured cabling project will be 100% successful because it will be handled by some of the industry's most talented technical staff and managed by our professional project management team.

LAN-TEL for a Full Suite of Structured Cabling Services:
