

LAN-TEL

Wireless LAN Solutions

LAN-TEL for Your Wireless LAN Solutions:

As your employees become increasingly mobile, real-time, innovative wireless services and applications are critical to maintaining your company's agility and competitive edge. Because LAN-TEL understands how important it is for companies to have fast, secure, cost-effective, and reliable access to real-time core business applications, it has partnered with some of the leading providers of Wireless LAN products and services in order to deliver the mission-critical wireless solutions you require.

LAN-TEL Take Your Project from Start to Finish:

Using its unique six-step process, LAN-TEL, along with its consultants and partners, will work with you to design, install and maintain the Wireless LAN solution that meets both your present and future requirements. The result will be a Wireless LAN network that delivers the same level of security, reliability, scalability, and ease of deployment that you have come to expect from your wired LAN.

LAN-TEL for a Full Suite of Integrated Solutions:

LAN-TEL's Wireless LAN offering includes a centrally managed Wireless LAN solution that is fully integrated with your structured cabling infrastructure. Our offering includes features such as:

- RF Management and Planning Software
- State-of-the-Art Firewalls
- Intrusion Detection System
- Support for Secure Voice over Wireless
- World-class Network Management

LAN-TEL for Best-of-Breed Equipment and Application Providers:

LAN-TEL works with some of the leading providers of Wireless LAN solutions in the industry today.
